

Rod Class Episode 861 6-17-14

[NOTE TO READER: please listen to the audio as well as read the transcript, for the Rod Class audio is the primary source material. This is not an exact, verbatim transcript, nor did Rod Class write it. This has been re-worded for easier reading and is provided as supplementary material.]

Hello Ladies and Gentlemen, this is Rod. We're going to talk about a timeline here. I want to give you information and I want you to make your own decisions regarding it. We're going to talk about how what we thought was a government switched over to become a corporation. We need to go back into our own history, to when this country was formed and the constitution was created and the amendments were created. We need to come up to the time period of around 1867. Our "government", as history shows, puts things into play years before they commit a crime. There has to be remedy – something needs to be put in place – before they commit a crime.

If we go back and look at the **Reconstruction Act of 1867**, shortly after the Civil War, the Federal Government walked into the states at gunpoint, and told them "this is how you're going to do it. You're going to relinquish your state sovereignty and you're going to become part of the federal government, like it or not. And if you don't do it then you're going to be executed."

Now if you were to look at previous case laws before 1867 it showed that when there were issues with the government, the states told the government "you have no subject matter; you have no jurisdiction, because we're independent. We're sovereign, therefore we don't have to follow your rules." Some of the old case laws that we've ran across in the past confirms this. But when they did the Reconstruction Act of 1867, the government came in and put a stop to that. They stripped the states of the sovereignty and made them swear a loyalty to the federal government. When they did this they already had the 14<sup>th</sup> amendment in mind, which came in 1868. The problem is, the American people have been dumbed down, given a false history, and they've been complacent – just accepting things the way they are. Back when the federal government took over in 1867 the people did rebel, but they didn't have a choice because the state officials were either to agree or get executed and replaced by someone who would agree.

4:45

We have been taught to believe that the 14<sup>th</sup> amendment freed the slaves and gave them rights and equal protection. What they failed to notice is how sections 2 and 3 placed government offices within 14<sup>th</sup> amendment – it brought those offices under servitude in order to take on that citizenship. This is very significant because at that time all the states were legitimate states – some of them had constitutions. Then in order for them to hold a position as a government they had to recognize that 14<sup>th</sup> amendment, and this is within a significant time frame because that amendment was passed in order to form a government.

6:20

Let's move up to 1871, what happened then? Now that it had all of the states under the 14<sup>th</sup> amendment, and they had all of the governments under the Reconstruction Act of 1867 that they were forced into at gunpoint, the government decided to create an independent 10 mile square that is neither a state, nor has accepted the 14<sup>th</sup> amendment government. And this was never presented to the people.

The constitution under article 4, section 3, says that they can create a state within a state – it doesn't say that they can create a corporation within a state and then take it out of the states. It doesn't say that they can create a territory and then take it out. It says they can create a state provided it was agreed to. This was a twist of words on their side of the fence – it was a manipulation. When they created that 10 mile square, in defiance of the constitution, they created a corporation – that's what they call it in the Act of 1871. They called it a corporation – a municipality. It is a municipality that can sue and be sued.

What's the significance? It is this: under the 1867 Reconstruction Act, the states were forced out of their sovereignty, and under the 14<sup>th</sup> amendment they were required to take the 14<sup>th</sup> amendment government standing with regards to the federal government. Up to that time period, the federal government was sitting in Georgetown Alexandria Washington, in that vicinity. They were still part of the state, so the government still had a 14<sup>th</sup> amendment standing because the state did, but *once they took it out of the state and created that district, they left behind that 14<sup>th</sup> amendment standing and took on a separate standing of a corporation.*

The people don't realize this has happened because on the 2<sup>nd</sup> of November on Election day we have a constitutional form of government... from 9 AM to 9 PM! And they'll tell you, "we're going to have an election and you're going to elect your public representative! It's constitutional, so you have a constitutional form of government"... This is true from 9 am to 9 pm when the people vote. The rest of the time, we're under a corporation.

10:00

We're not thinking on these terms because we have been desensitized and dumbed down on these matters. If we stop and think about what happened, we see that when they created that corporate district in 1871 they actually walked out of that 14<sup>th</sup> amendment government standing and went into a corporation beyond the peoples knowledge and understanding. When our schools talk about the 14<sup>th</sup> amendment they only talk about how it freed the slaves – they don't talk about sections 2 or 3, or about the government standing.

11:10

As we go forward through history we come to the history of our currency. When the Federal Reserve took over the banking system, it happened because congress gave it to

them. They went in and signed the Federal Reserve Act – go read it! If you look at section 16 it tells you that the Federal Reserve Note [from now on: FRN] is an obligation of the US and it's for internal use – for FR agents – it was never meant for you and I! When 1917 came along and we get into WWI, then they created the Trading with the Enemy Act, which also dealt with the currency. They twisted it to deal with FRN in Germany, because the FR went into Germany and made them take on the FRN in order to do the war.

We can show in our own congressional records that in 1917 Lindberg was on the floor of congress stating that when they passed that 1913 FR Act, little did the people know that they had become the credit line. Our money was no longer backed by gold and silver; the people themselves became the source of the credit. In 1928 our government handed over close to 61 billion in gold bullion to the FR; in 1959 they handed over nearly 51 billion – and in 1929 we had a stock market crash. That's because our government was handing out gold to the FR to crash our economy, and 1930 they gave out close to another 13 billion. **The cost of the stock market crash was self-induced by our own government in order to enslave the people.** They put us into servitude and passed what was known as the 1933 Amendatory Act, also known as the Banking Relief Act, under public law 148 stat c1, which is what declared the people to be enemies of the state. We now are classified as enemies. The people didn't realize it back then, and they realize it today either.

15:20

When they did this our government handed over its natural resources and then they pledged your body, your work, your property to the system as the backing credit. They handed over the gold, and they handed you over as collateral for any of the oil and natural resources to be pillaged and plundered. None of it is being used to pay for the debt because they can keep extorting the people instead – this is enslavement.

In 1935 they passed the Social Security Act supposedly for old age, disabilities and pensions. But there's more to it than that. Cause when you get into title 5 section 501 502, the federal government gave a dollar amount on you, and it shows that 1.8 million dollars is what you're worth and that the state got 1 million dollars – and you need to go back and read that, because people have different interpretations of this. I'm reading it that it gave 1 million per birth certificate per annual year. Some people have a different opinion on this but nevertheless the federal government put a dollar on you for what you're worth. We've had people go and verify that we're worth millions of dollars.

In 1940 they passed what was known as the Alien Registration Act, and this works with the birth certificate. This supported the Social Security Act of 1935; a birth certificate has to be created in order to show that there was a live birth. During this time period, Congressman McFadden was talking about the FR and was explaining that the FRN was not money – it was an exchange where you're giving something tangible, such as your property, gold, your work, for a piece of paper that would merely promise to pay you someday. And this was never explained to the people.

18:10

In other congressional records between 32 and 33, they stated that that note – the FRN – did not have so much of a pennies worth of backing, but that it was the credit of the people (and this goes back to Lindberg saying that you're the credit line). *You're physical being and signature IS the credit line*, and this is what McFadden was saying: you sign something and that creates the credit because you pledged your labor. That's what the Amendatory Act and Bankruptcy of 1933 was all about. This thing has 2 different names, but it discloses the fact that you are enslaved here. **You have been put into bondage for the credit of this country.** This was never explained to the people.

19:10

They have manipulated the people and we have become complacent because we didn't know. Every time we have an issue we're told to go to a lawyer, but the lawyer is going to lie through his teeth and deny all of this. They'll say we're misinterpreting this. Nonetheless, it was recently proven that our signatures are being sold on the stock market which validates what we've been saying. The moment they created the Act of 1871 we lost our government, which became a corporation. With the Reconstruction Act of 1867 and 14<sup>th</sup> amendment putting everyone under the federal side, the moment the federal government became a corporation, so did the states. It is that simple.

We've been enslaved ever since. But because we're not being taught, we're being sidestepped, and everything is done behind close doors, and we don't realize it. **And the other part we don't realize is that all of this has come under International Law** after 1945 when the International Organization Immunities Act was created and placed our government under UN jurisdiction. It placed every single government – our state government, our federal government, right down to the mayor – under UN jurisdiction.

In 1983 under Executive Order 12425 came the International Criminal Police Organization, which was done by Ronald Reagan. It says:

“By virtue of the authority vested in me as President by the Constitution and statutes of the United States, including Section 1 of the International Organizations Immunities Act (59 Stat. 669, 22 U.S.C. 288), it is hereby ordered that the International Criminal Police Organization (INTERPOL), in which the United States participates pursuant to 22 U.S.C. 263a, is hereby designated as a public international organization entitled to enjoy the privileges, exemptions and immunities conferred by the International Organizations Immunities Act; except those provided by Section 2(c), the portions of Section 2(d) and Section 3 relating to customs duties and federal internal-revenue importation taxes, Section 4, Section 5, and Section 6 of that Act. This designation is not intended to abridge in any respect the privileges, exemptions or immunities which such organization may have acquired or may acquire by international agreement or by Congressional action.”

22:50

**Ronald Reagan just gave Interpol jurisdiction in this country!** Obama, in 2009, amended the Executive Order under his Executive Order 132524, designated Interpol as a public international organization entitled to enjoy certain privileges, exemptions and immunities. Interpol has jurisdiction in this country over its public officials.

I want you to think about several years ago, to when Hilary Clinton was Secretary of State. When Arizona was creating legislation to deport illegal aliens, Clinton did not go to US Congress – she went to the UN to bring charges against the governor and the legislation for committing crimes against humanity and the rights of illegal aliens. She went to the UN under the International Organization and Immunities Act.

So now we have another problem – we not only don't have a government – having a corporation instead – but it is a foreign power and no longer a US government that we put in on Election Day. That Nov. 2<sup>nd</sup> Election Day was a ruse to make you think that you have a government by holding an election. Those 12 hours from 9 to 9 we have a constitutional government. After that, it's all International – it's all corporate business.

25:50

This is why these courts aren't operating in this country under the constitution or its own set of rules... Because it doesn't have to! Under title 22 CFR – which means Foreign Relations – this is where their oath of office comes in: its under 92.12 to 92.30. If you go to title 8 USC, under alien residence, § 1481, when these people took their oath to office they had to relinquish their national citizenship which goes back to the Reconstruction Act when they had to relinquish their state citizenship and take on the federal side.

Our history and statutes show all this but we the people aren't realizing it, and we're not recognizing that we have been thrown to the wolves as slaves. The purpose of having a license – for example, to get married – is that you're going to the government to ask for their permission! You're asking for their approval for you to get married, and without their consent you cannot get a marriage license. The same thing goes with driver's licenses – and your automobile belongs to the state.

27:40

I was sitting with one gentleman the other day – the guy was in court and the prosecutor told him “driving is a privilege.” The guy looked at him and says “so what you just told me is that I'm now a slave and you're my master and I need your permission. Without your permission I can't drive.”

Ladies and Gentlemen, that's what this has come down to. Unless we get their consent, and we get their approval, we're not allowed to do anything. And yet, who puts them into office? We didn't go to them to get their approval to put them into office – they came to

you and asked you for that job! And for those 9 hours, they work for us. Think about it – this is simple.

From the Reconstruction Act of 1867 up to present date we've walked you through how we used to have a government, how it turned into a corporation, and from a corporation it went into international jurisdiction. This is the short history of the layout. This gets into war crimes on their side.

This country has been committing war crimes and violating human rights since its beginning. With the genocide of Native Americans, and now what they are doing even to us – the pharmaceutical companies are creating experimental drugs to test on the people to see the side effects. How many people die? What are the side effects of all of this?

Start looking at what this country did... And then start looking at what the Nazis were being tried for at the Nuremburg trials. You're going to see more hate crime, more violation of peace, more violation against human rights in THIS country than Germany ever thought about doing. We have become complacent with this – it becomes a way of life in this country, as “standard operating procedure”. They have desensitized the American people and that's why the American people don't get upset; they'll say “well that's just how they do it, they've done this for the last 200 years.”

You're right and that's the point! They've been doing it for the last 200 years. It's complacency on our part, and until we start standing up and saying “no more”, and until our voices are heard and we start hammering the system – and this means you start petitioning your legislators, you start petitioning and start suing the courts, you start bringing these claims in every time we're dragged in, until they start realizing that we understand this – then and only then will they change. And they won't change before that.

Think about it. We have been living this for hundreds of years – they've indoctrinated us and we've just gone along with it.

Thank you and have a good day.
